

# HOT OILERS & PRESSURE TRUCKS

- 15K HOT OILER
- 15K PRESSURE TRUCK

## 15K HOT OILER

- 15k 7 million BTU hot oiler
- Pumping rates from 0 to 800L/min affected by pressure
- Can heat a 400bbl from 0c to 30c in 60 minutes
- Can heat and pump as slow as 300L/min to as fast as 800L/min
- Can be run in series or parallel coil setup for faster or slower circulation of fluid
- Can circulate fluid through burner at 1200L/min and get a 30c temperature spread on the fluid from intake to discharge.
- Full data acquisition system with charts and second by second data
- Can hold 6m3 of fluid in tanks for infield work
- TDG spec tank
- 4m3 diesel tank
- 15k Weir Spm triplex pump
- 5k hose reel with 75ft of hose for smaller jobs
- 150 ft of 2inch 1502 hard line on unit

## 15K PRESSURE TRUCK

- 15k low rate pressure truck
- Pumping rates from 0-150l/min max
- Can pump 150l/min at 15k
- Comes with 100ft of 15k mongoose hose on a reel for easy rig in and rig out.
  - Can haul out 5m3 of methanol to location
  - Can pump pure methanol
  - Can pump HCL acid or Synthetic blend acid
  - Full data recording system with charts available to customer
